

Trinity College Onsite Accommodation – Accessibility

Produced by JCR Disabilities Officer Tiri Hughes (tirion.hughes@trinity.ox.ac.uk) in July 2020

Correct as of July 2020

About this Document

The first part of this document ‘List of Accommodation’ lists accommodation by staircase with detailed accessibility information for each room. The second part ‘Recommendations’ is a list of recommendations of potentially accessible rooms for individuals with specific disabilities.

General Information

- All individual bedroom doors are manual unless stated otherwise.
- All flights of stairs are in runs of straight steps unless stated otherwise.
- All bedrooms without an en-suite have a sink.
- All individual rooms have a mini-fridge and ‘set’ rooms have a fridge.

Recommendations

Wheelchair users:

- Powered wheelchair users:
 - Rooms 3.1 and 3.2 are the most accessible rooms and may be accessible to powered wheelchair users including those with reduced upper body strength.
 - Level access throughout (straight from outside)
 - Automatic door
 - Accessible en-suite (including grab rails, shower chair and red pull cords)
 - Powered curtains
 - Large turning circle space
- Full-time manual wheelchair users:
 - Rooms 3.1 and 3.2 are the most accessible rooms and may be accessible to manual wheelchair users including those with reduced upper body strength.
 - Level access throughout (straight from outside)
 - Automatic door
 - Accessible en-suite (including grab rails, shower chair and red pull cords)
 - Powered curtains
 - Room 5.6 may be accessible to a full-time manual wheelchair user with good upper body strength.
 - Level access apart from a small outdoor lip
 - Manual doors to staircase, corridor and room.
 - Accessible en-suite with grab rails and shower chair.
 - Room 6.4 may be accessible to a full-time manual wheelchair user with good upper body strength.
 - Level access throughout
 - Automatic door to staircase
 - Manual doors to corridors and rooms
 - Accessible en-suite (including grab rails, shower chair and red pull cords)
- Ambulant wheelchair users:
 - Rooms 3.1 and 3.2 are the most accessible rooms and may be accessible to manual wheelchair users including those with reduced upper body strength.
 - Level access throughout (straight from outside)
 - Automatic door
 - Accessible en-suite (including grab rails, shower chair and red pull cords)
 - Powered curtains
 - Room 5.6 may be accessible to an ambulant manual wheelchair user with good upper body strength.
 - Level access apart from a small outdoor lip
 - Manual doors to staircase, corridor and room.
 - Accessible en-suite with grab rails and shower chair.
 - Room 6.4 may be accessible to an ambulant manual wheelchair user with good upper body strength.
 - Level access throughout
 - Automatic door to staircase
 - Manual doors to corridors and rooms
 - Accessible en-suite (including grab rails, shower chair and red pull cords)

- Staircase 6 ground floor rooms may be accessible to an ambulant manual wheelchair user with good upper body strength.
 - Level access to room
 - Automatic door to staircase
 - Manual doors to corridors and rooms
 - Step to en-suite bathroom

Mobility/Physical Impairments (Non-Wheelchair Using):

- All ground floor rooms should be considered, with priority given to the following:
 - Rooms 3.1 and 3.2 are the most accessible rooms and may be accessible individuals with mobility impairments including those with reduced upper body strength or whose arms are occupied by mobility aids.
 - Level access throughout (straight from outside)
 - Automatic door
 - Accessible en-suite (including grab rails, shower chair and red pull cords)
 - Powered curtains
 - Room 6.4 may be accessible to individuals with mobility impairments including those with minimally reduced upper body strength or whose arms are occupied by mobility aids.
 - Level access throughout
 - Automatic door to staircase
 - Manual doors to corridors and rooms
 - Accessible en-suite (including grab rails, shower chair and red pull cords)
 - Staircase 6 ground floor rooms may be accessible to individuals with mobility impairments including those with minimally reduced upper body strength or whose arms are occupied by mobility aids.
 - Level access to room
 - Automatic door to staircase
 - Manual doors to corridors and rooms
 - Step to en-suite bathroom
 - Staircase 14 ground floor rooms may be accessible to individuals with mobility impairments.
 - Only a couple of steps into the staircase.
 - Manual door to staircase and rooms.

D/deaf/Hard of Hearing:

- D/deaf/HoH individuals who require alternative fire alarm systems:
 - Rooms 14.1, 14.2, 14.3, 3.1, 3.2, 2.9 and 18.2.
 - These have the capability for vibrating pillow/flashing light fire alarm.
- For D/deaf/HoH individuals who require an alternate fire alarm system and also have mobility impairments (including wheelchair users):
 - 3.1 and 3.2 are most likely to be accessible to individuals with mobility impairments including wheelchair users.
 - Level access, straight from outdoors.

- Wide automatic door.
 - Capability for vibrating pillow/flashing light fire alarm.
- 14.1, 14.2 and 14.3 also being potentially accessible for those with less severe mobility impairments (not including wheelchair users)
 - Only a couple of steps into the staircase.
 - Capability for vibrating pillow/flashing light fire alarm.

Assistance Dog Owners:

- For assistance dog owners, it is likely that other disability needs will need to be taken into account. In general, the following rooms are mostly likely to be accessible:
 - Rooms 3.1 and 3.2 are the most accessible rooms and may be more accessible to assistance dog owners.
 - The large wet-room style bathroom may be suitable for dog washing.
 - Level access, straight from outdoors.
 - Wide automatic door.

Students with Medical Needs:

- Students with medical needs requiring an en-suite:
 - 3.1 and 3.2 are most likely to be suitable
 - Room 5.6 may be suitable
 - All staircase 6 rooms may be suitable
 - All staircase 7 rooms may be suitable
 - All staircase 14 rooms may be suitable
 - Rooms 12.1, 12.2, 12.4, 12.5, 12.6, 13.3, 13.5, 13.6 may be suitable.
- Students with medical needs requiring additional storage space or a larger fridge:
